Report of the Compensation Committee on Executive Compensation

The Compensation Committee reviews and establishes the compensation of the Company's chief executive officer. It also reviews and approves compensation recommendations submitted by the chief executive officer for all other executive officers. In addition, the Committee administers the Equity Compensation Plan and, in that capacity, is responsible for reviewing and approving stock options awarded

-9-

under the plan. In the case of option grants to directors and executive officers, the Committee may recommend such grants for approval with the full Board serving as the committee for purposes of the plan. The policies followed by the Committee with respect to compensation of executive officers during the 2000 fiscal year, and the bases for Mr. Hunter's fiscal 2000 compensation, are discussed below.

Compensation Philosophies

The Compensation Committee seeks to adhere to practices that will enable the Company to attract and retain qualified executives, align the interests of executives with the long-term interests of the Company's shareholders and motivate executives to achieve targeted objectives. In furtherance of these goals, base salaries are generally set annually at levels which take into account both competitive and performance factors. The Company also relies to a substantial degree on stock options to attract and motivate its executives. During the 2000 fiscal year, compensation arrangements for executive officers consisted of base salary, incentive cash compensation, stock option grants and other benefits available to Company employees generally.

Cash-Based Compensation

The Committee determines the base salary of the chief executive officer and reviews and approves base salaries for the Company's other executive officers annually. In adjusting salaries, the Committee examines both qualitative and quantitative factors relating to corporate and individual performance. The qualitative factors in many instances necessarily involve a subjective

assessment by the Committee. The Committee does not base its considerations on any single performance factor nor does it specifically assign relative weights to factors. It instead considers a variety of factors and evaluates individual performance against those factors both in absolute terms and in relation to the executive's peers at similar companies. The Committee also relies on the evaluations and recommendations of Mr. Hunter, who has served as Chief Executive Officer since 1994, in approving salary adjustments for other executive officers.

As part of its review of fiscal 2000 salaries, the Committee considered an independent survey of executive officer compensation at a broad group of companies in the electrical and electronics industries. The positions surveyed included positions comparable to those of the Company's chief executive officer, chief operating officer and chief financial officer. The fiscal 2000 salary approved for Mr. Hunter was in the third quartile of the salaries reported in the survey for comparable chief executive officer positions in firms with \$60 to \$100 million in annual revenues.

The Company's executive officers, including the chief executive officer, also participated in a management incentive compensation program approved by the Committee for the 2000 fiscal year. Under the program each participant was assigned a target award for the fiscal year, expressed as a percentage of base salary, to be paid if the Company achieved a certain pre-established earnings per share goal for the year (net of amounts paid pursuant to the plan). No awards were to be paid if actual earnings per share were less than 93% of the pre-established goal, and awards were to be decreased 20% if actual earnings per share were between 93% and 100% of the goal and increased 20% if actual earnings per share were 110% or more of the goal. The Company's reported earnings per share for the 2000 fiscal year exceeded 110% of the year's goal, and the awards were increased accordingly under the plan terms. Participation in the management incentive compensation program was in lieu of participation in the Company's incentive compensation program for other employees, in which the Company paid quarterly bonuses based on pre-tax operating profits achieved in the quarter subject to meeting quarterly earnings per share goals.

Equity Incentives

The Company utilizes stock options granted under the Company's Equity Compensation Plan, which is administered by the Compensation Committee, to align shareholder and management interests by giving executive officers a substantial economic stake in long-term appreciation of the Company's stock. Since the Company's initial public offering in 1993, all options granted under the plan have been awarded with exercise prices set not less than the market value of the underlying stock on the grant date. Generally, option grants are awarded with a ten-year term and are subject to vesting over three to five years.

-10-

The Compensation Committee takes into account all factors it deems appropriate in reviewing proposed option grants to executive officers, including the officer's position and level of responsibility, the officer's existing unvested option holdings, the potential reward to the officer if the stock price appreciates and the competitiveness of the officer's overall compensation arrangements, including stock options. Outstanding performance by an individual may also be taken into consideration. Option grants are often made to new executives upon commencement of employment and, on occasion, to executives in connection with a significant change in job responsibility. The Compensation Committee relies on Mr. Hunter's evaluations and recommendations in approving option grants to other executive officers. Based on the factors described above, during fiscal 2000 the Committee recommended, and the Board of Directors approved, grants to executive officers of options to purchase an aggregate of 336,400 shares of Common Stock.

Chief Executive Officer Compensation

The Compensation Committee followed the policies described above in approving Mr. Hunter's cash compensation for fiscal 2000 and the stock options awarded him during the year, taking into consideration a number of factors relating to corporate and individual performance. Of chief importance were the success of the Company, under Mr. Hunter's direction, in achieving increased profitability and earnings per share in recent years. Based on these factors the Committee approved an increase in Mr. Hunter's fiscal 2000 salary to \$230,000 from his prior year's salary of \$180,000. In addition, Mr. Hunter earned \$138,000 in incentive compensation during the 2000 fiscal year under the management incentive compensation program described above.

Mr. Hunter also received an option to purchase 120,000 shares of Common Stock at \$83.9375 per share, which was the closing market price on the date the option was granted. The option vested as to 30,000 shares in July 2000, and the remainder vests over the next two years in annual increments of 30,000 and 60,000 shares, respectively, subject to continued employment at the applicable vesting date.

Compensation Committee Interlocks and Insider Participation

None of the members of the Compensation Committee during the 2000 fiscal year has ever served as an officer or employee of the Company. No interlocking relationships exist between the Company's Board of Directors or Compensation Committee and the board of directors or compensation committee of any other company. Certain members of the Compensation Committee own shares of common stock of Charles & Colvard, Ltd., a customer of the Company. See "Certain Transactions" below.

-11-

CERTAIN TRANSACTIONS

Supply and Related Agreements with Charles & Colvard, Ltd.

The Company is a party to certain agreements with Charles & Colvard, Ltd. (formerly C3, Inc.) ("Charles & Colvard"), a customer of the Company engaged in the fabrication and sale of gemstones made from silicon carbide. F. Neal Hunter, the Company's Chairman and Chief Executive Officer, is a brother of Jeff N. Hunter, who served as Chairman of the Board and Chief Executive Officer of Charles & Colvard until May 2000, and of C. Eric Hunter, formerly a substantial shareholder of Charles & Colvard. According to Schedule 13G reports filed with the Commission, Jeff N. Hunter in August 2000 beneficially owned 4.8% and C. Eric Hunter in January 2000 beneficially owned 0% (74 shares) of the outstanding shares of Charles & Colvard. During its most recent fiscal year, five of the Company's directors (Messrs. Carter, Dykes, Palmour, Robb and von Arx) also held Charles & Colvard shares, representing in the aggregate approximately 1.5% of the shares outstanding.

The Company supplies silicon carbide to Charles & Colvard pursuant to a supply agreement originally entered into in 1995 and subsequently amended and restated. The agreement provides that the Company will supply silicon carbide to Charles & Colvard on an exclusive basis for use in the fabrication of gemstones and that Charles & Colvard will purchase certain of its requirements for such material from the Company. In related development agreements executed in 1997 and 1998, and subsequently amended and restated, the Company has undertaken to develop improved processes for manufacturing large volume, colorless silicon carbide material for sale to Charles & Colvard. In addition, the Company and

Charles & Colvard are parties to an agreement executed in 1996 under which the Company has supplied certain electronic devices to Charles & Colvard for use in gemstone testing equipment. Charles & Colvard purchased approximately \$16.2 million in products and services from the Company under these agreements during the Company's fiscal year that ended June 25, 2000.

The Company and Charles & Colvard also executed agreements in 1998 and 1999 under which Charles & Colvard agreed to purchase equipment to be constructed by the Company and retained by the Company for use in manufacturing silicon carbide for sale to Charles & Colvard. Construction under these agreements was begun during fiscal 1998 and completed in fiscal 2000, at a total purchase price to Charles & Colvard of approximately \$6.1 million, of which approximately \$1.4 million was charged in fiscal 2000. In May 2000, the Company and Charles & Colvard executed an agreement under which the Company repurchased all of this equipment for a purchase price of \$5.0 million, payable as a credit to be taken by Charles & Colvard against subsequent purchases of silicon carbide from the Company, with any unapplied balance due June 30, 2001.

Employment Agreement with C. Eric Hunter

C. Eric Hunter, a brother of the Company's current Chairman and Chief Executive Officer, is employed by the Company on a part-time basis pursuant to an employment agreement signed in May 1999. Mr. Hunter previously served as the Company's President and Chief Executive Officer from 1987 to 1994 and as Chairman of the Company's Board of Directors from 1987 to 1995. He was engaged as a consultant to the Company from 1995 until 1998. Under the terms of the May 1999 employment agreement, the Company employs Mr. Hunter as a Senior Technology Advisor at an annual salary of \$15,000. Pursuant to the agreement, Mr. Hunter also assigned to the Company ownership of certain patent applications and patents on inventions relating to wide bandgap materials, subject to previously granted license rights, and in consideration of the assignment and other benefits the Company granted Mr. Hunter a non-qualified option to purchase 134,400 shares of Common Stock. The option was granted May 11, 1999 at an exercise price equal to the closing market price on the grant date (adjusted for stock splits) and vests in seven equal annual increments, subject to continued employment on the applicable vesting date. The employment agreement obligates Mr. Hunter not to engage in certain competitive activities during the ten-year term of the agreement and for three years thereafter. Neither party may terminate the agreement except for cause (as defined in the agreement) and except that Mr. Hunter may resign after seven years.

-12-

World Theatre, Inc. Investment

In April 2000, the Company purchased shares of common stock of World Theatre, Inc., a North Carolina corporation ("World Theatre"), for a purchase price of \$5 million. The shares represent less than 10% of World Theatre's outstanding shares and were purchased in a private placement transaction in which World Theatre raised approximately \$19 million. The price paid by the Company was the same as that offered to other investors in the private placement. C. Eric Hunter, a brother of the Company's Chairman and Chief Executive Officer, is a substantial shareholder of World Theatre, which is a development stage company engaged in developing businesses based on the concept of providing "on-demand" access for the purchase of products and services.

PROPOSAL NO. 2 -- APPROVAL OF AMENDMENT TO ARTICLES OF INCORPORATION TO INCREASE AUTHORIZED SHARES

Proposed Amendment

The Board of Directors on July 31, 2000 adopted resolutions approving an amendment of the Company's Articles of Incorporation to increase the authorized shares of Common Stock from 60,000,000 shares to 100,000,000 shares and directing that the proposed amendment be submitted to a vote of the shareholders at the Annual Meeting. The Board of Directors determined that the amendment is in the best interests of the Company and unanimously recommends approval by the

shareholders. If the amendment is approved by the shareholders, the Company will file Articles of Amendment with the North Carolina Secretary of State reflecting the amendment, which will become effective on the date the Articles of Amendment are accepted for filing by the Secretary of State.

Assuming the presence of a quorum, approval of the amendment to the Company's Articles of Incorporation requires that the votes cast in favor of the amendment exceed the votes cast opposing the proposal. Under North Carolina corporate law, abstentions are treated as non-votes in determining whether shareholders have approved a proposal. Abstentions and non-votes will have no effect on the vote to approve this proposal.

The Board of Directors recommends
shareholders vote FOR Proposal No. 2.

Background and Reasons for the Proposal

The Articles of Incorporation presently authorize the issuance of up to 60,000,000 shares of Common Stock and 3,000,000 shares of Preferred Stock. No shares of Preferred Stock are issued and outstanding. Of the 60,000,000 shares of Common Stock authorized, as of the close of business on September 12, 2000 there were 35,492,006 shares issued and outstanding and 5,372,495 shares reserved for future issuance. Of the shares then reserved for future issuance, (i) 216,840 shares were reserved for issuance pursuant to outstanding warrants, including warrants assumed by the Company in its acquisition of Nitres, Inc. (now known as Cree Lighting Company) in May 2000; (ii) 144,000 shares were reserved for issuance pursuant to outstanding options granted to non-employee directors under the Company's Stock Option Plan for Non-Employee Directors (which was terminated as to future grants in 1997); (iii) 277,361 shares were reserved for issuance under the Company's 1999 Employee Stock Purchase Plan; (iv) 132,543 shares were reserved for issuance pursuant to options assumed by the Company in its acquisition of Nitres, Inc. in May 2000; (v) 4,492,447 shares were reserved for issuance pursuant to outstanding options granted under the Company's Equity Compensation Plan; and (vi) 109,304 shares were reserved for future awards under the Equity Compensation Plan.

After deducting outstanding and reserved shares, of the 60,000,000 shares of Common Stock presently authorized there are 19,135,499 authorized shares that have not been issued and are not reserved for a specific purpose. The Board of Directors believes that it is in the Company's best interests to increase the number of authorized shares of Common Stock to make additional shares available for issuance to meet the Company's

-13-

future business needs. The increase in shares not reserved for any specific purpose would give the Company flexibility to meet business needs as they arise in the future.

The Company's management has no present arrangements, agreements, understandings or plans for the issuance or use of the additional shares of Common Stock proposed to be authorized by the amendment. The Board of Directors believes the availability of such shares will benefit the Company by providing flexibility to issue stock for a variety of other proper corporate purposes as the Board of Directors may deem advisable without further action by the Company's shareholders, except as may be required by law, regulation or stock exchange rule. These purposes could include, among other things, the sale of stock to obtain additional capital funds, the purchase of property, the acquisition or merger into the Company of other companies, the use of additional shares for various equity compensation and other employee benefit plans, the declaration of stock dividends or distributions and other bona fide corporate purposes. Were any of these situations to arise, the issuance of additional shares of stock could have a dilutive effect on earnings per share, and, for a person who does not purchase additional shares to maintain his or her pro rata interest, on a shareholder's percentage voting power in the Company. Holders of the Common Stock do not have preemptive rights to subscribe to additional securities that may be issued by the Company, which means that current shareholders do not have a prior right to purchase any new issue of stock of the Company in order to maintain their proportionate ownership interest.

Although an increase in the authorized shares of Common Stock could, under certain circumstances, have an anti-takeover effect (for example, by diluting the stock ownership of a person seeking to effect a change in the composition of the Board of Directors or contemplating a tender offer or other transaction directed to the combination of the Company with another company), the current proposal to amend the Articles of Incorporation is not in response to any effort to accumulate the Company's stock or to obtain control of the Company by means of a merger, tender offer, solicitation in opposition to management or otherwise. As of the date of this Proxy Statement, management is not aware of any actions taken by any person or group to obtain control of the Company. In addition, the proposal is not part of any plan by management to recommend a series of similar amendments to the Board of Directors and the shareholders.

Although the purpose of seeking an increase in the number of authorized shares of Common Stock is not intended for anti-takeover purposes, the rules of the Securities and Exchange Commission require disclosure of the provisions of the Articles of Incorporation and the Company's Bylaws that could have an anti-takeover effect. The Equity Compensation Plan and the laws of the State of North Carolina contain additional provisions that also may have the effect of delaying, deterring or preventing a change in control of the Company. These provisions are described below.

Articles and Bylaws. The Articles of Incorporation and Bylaws contain provisions that may have the effect of delaying, deterring or preventing a change in control of the Company, including: (i) the ability of the Board of Directors under the Articles of Incorporation to authorize the issuance of up to 3,000,000 shares of Preferred Stock, in one or more series, having such preferences, limitations and relative rights as are determined by the Board of Directors; and (ii) under the Bylaws, a shareholder who wishes to nominate directors at an annual or special meeting or submit a proposal for consideration at an annual meeting must provide notice to the Company during a certain period before the meeting.

Equity Compensation Plan. The Equity Compensation Plan provides that, in the event of a change in control of the Company, options granted prior to January 31, 1999, and options granted thereafter which so provide by their terms, to the extent not previously vested and exercisable, shall be deemed fully vested and exercisable effective immediately. Substantially all of the options granted under the Equity Compensation Plan provide for such accelerated vesting upon a change in control of the Company.

Shareholder Protection Act. The North Carolina Business Corporation Act (the "NCBCA") includes provisions that may have the effect of delaying, deterring or preventing a change in control of the Company. Article 9 of the NCBCA sets forth the North Carolina Shareholder Protection Act (the "Shareholder Protection Act"). The Shareholder Protection Act requires the affirmative vote of the holders of 95% of the voting shares of a corporation, voting as one class, for the adoption or authorization of a business combination (i) with any other entity if, as of the record date for the determination of shareholders entitled to vote on such

-14-

business combination, the other entity is the beneficial owner, directly or indirectly, of more than 20% of the voting shares of the corporation and (ii) with any affiliate of the corporation which at any time has been a 20% holder of such voting shares. A "business combination" is defined to include any merger or consolidation of a corporation with or into any other corporation, or the sale or lease of all or any substantial part of the corporation's assets to, or any payment, sale or lease to the corporation or any subsidiary thereof, in exchange for securities of the corporation of any assets (except assets having an aggregate fair market value of less than \$5,000,000) of any other entity. The 95% voting requirement is not applicable if certain fair price and procedural requirements are satisfied. The Shareholder Protection Act applies to the Company since the Company did not, within 90 days of becoming a public corporation, adopt a bylaw stating that the provisions of the Shareholder Protection Act do not apply to the Company.

Control Share Acquisition Act. Article 9A of the NCBCA Act sets forth the North Carolina Control Share Acquisition Act (the "Control Share Acquisition Act"). The Control Share Acquisition Act generally provides that any person who acquires beneficial ownership of the shares of a corporation which, when added to all other shares of the corporation beneficially owned by the person, would increase that person's voting power in the election of directors to an amount

equal to or greater than one-fifth, one-third or a majority of all voting power, is not entitled to vote the shares acquired unless the right to vote such shares is approved by a majority of all the outstanding shares of the corporation entitled to vote for the election of directors, excluding interested shares. Interested shares include any shares owned by any person who has acquired or proposes to acquire a controlling interest, any officer of the corporation and any employee of the corporation who is also a director. The decision to grant voting rights to the control shareholder must be voted upon at the next special or annual shareholders meeting. Unless otherwise provided in the corporation's articles of incorporation or bylaws, if voting rights are granted to the control shares and the holders of the control shares have a majority of voting power for the election of directors, other shareholders may have their shares redeemed by the corporation at their fair value calculated as of the day prior to the date the vote was taken to accord the control shares such voting rights, as long as certain procedural requirements are satisfied. The Control Share Acquisition Act does not apply to acquisitions of stock pursuant to a merger or share exchange if effected pursuant to a written agreement to which the corporation is a party. The Act applies only to certain covered corporations that are public corporations incorporated in and with substantial ties to the State of North Carolina and that have not opted out of the provisions of the Control Share Acquisition Act. The Company has not opted out of the provisions of the Control Share Acquisition Act.

PROPOSAL NO. 3 -- APPROVAL OF
AMENDMENT TO EQUITY COMPENSATION PLAN

General

The Board of Directors on July 31, 2000 adopted an amendment to the Equity Compensation Plan, subject to approval of the shareholders, to increase the number of shares of Common Stock that may be issued under the plan by 3,000,000 shares. At September 12, 2000, there were options to purchase 4,492,447 shares outstanding under the Equity Compensation Plan and 109,304 shares authorized for future awards, for a total of 4,601,751 shares reserved for issuance pursuant to the plan. Of the shares reserved for issuance pursuant to options then outstanding, 372,000 were reserved for grants to non-employee directors and 4,120,447 were reserved for employee grants. The Equity Compensation Plan provides that the exercise price of options awarded under the plan cannot be less than the market value of the Common Stock on the grant date.

The ability to offer stock through options has been and will continue to be a necessary and beneficial method by which the Company can retain the services of employees and attract competent personnel. The Board of Directors believes that the Equity Compensation Plan will continue to promote the growth and prosperity of the Company by providing employees and others with an additional incentive to contribute their best efforts to the Company. The Board of Directors believes that options create this incentive by providing the recipient an opportunity to acquire a proprietary interest in the Company and thereby providing a means to participate in the future growth of the Company.

-15-

Assuming the presence of a quorum, approval of the amendment to the Equity Compensation Plan requires that the votes cast in favor of the amendment exceed the votes cast opposing the proposal. Under North Carolina corporate law, abstentions are treated as non-votes in determining whether shareholders have approved a proposal. Abstentions and non-votes will have no effect on the vote to approve this proposal.

The Board of Directors recommends
shareholders vote FOR Proposal No. 3.

Description of Equity Compensation Plan

The following description of the Equity Compensation Plan is merely a summary of some of its terms and provisions, is not intended to be a complete description of the Equity Compensation Plan and is qualified in its entirety by reference to the full text of the Equity Compensation Plan.

The Equity Compensation Plan is not generally subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The

Equity Compensation Plan is not a qualified plan under Section 401 of the Code.

Nature and Purpose

The Equity Compensation Plan provides for grants to participants in the form of incentive stock options and nonqualified stock options. All awards made under the Equity Compensation Plan prior to the date of this Proxy Statement have been nonqualified stock options.

The Equity Compensation Plan is designed, for the benefit of the Company, to attract and retain personnel of exceptional ability; to motivate such personnel through added incentives to make a maximum contribution to greater profitability; to develop and maintain a highly competent management team; and to be competitive with other similar companies with respect to executive and non-executive compensation.

Administration

The Equity Compensation Plan is administered by the Compensation Committee of the Board of Directors (the "Committee"). Members of the Committee are appointed by the Board of Directors from among its members to serve at the pleasure of the Board of Directors and may be removed by the Board of Directors in its discretion. The Committee has the exclusive right to interpret, construe and administer the Equity Compensation Plan and to select the persons eligible to receive awards. The Committee determines the number of shares subject to an award and the form, terms, conditions and duration of each award. The Committee's decisions are conclusive, final and binding upon all parties.

The Committee has broad discretion to adopt rules, regulations and procedures of general application for the administration of the Equity Compensation Plan. In addition, the Committee has full power and authority to determine whether, to what extent and under what circumstances any award under the Equity Compensation Plan may be canceled or suspended if a participant, without the Committee's consent, while employed by the Company or after termination, becomes associated with, employed by, renders services to or owns any interest, other than any insubstantial interest, in any business that is in competition with the Company, as determined by the Committee in its discretion, or is terminated for cause, as determined by the Committee in its discretion.

Securities To Be Offered

The Company has been authorized to issue an aggregate of 6,909,900 shares of Common Stock under the Equity Compensation Plan since the inception of the plan in 1989. Of that amount, as of September 12, 2000 there have been 2,308,149 shares issued pursuant to exercises of previously granted options, 4,492,447 shares are reserved for issuance pursuant to outstanding options and 109,304 shares are available for future awards. The proposed amendment to the Equity Compensation Plan will increase the number of authorized shares issuable under the Equity Compensation Plan by 3,000,000 shares. Common Stock subject to awards under the Equity Compensation Plan will be made available from the authorized and unissued shares of Common

-16-

Stock. The last sale price of the Common Stock on September 12, 2000 on the Nasdaq Stock Market was \$116.50 per share.

To the extent any shares of Common Stock awarded or subject to purchase under the Equity Compensation Plan are not delivered or purchased, or are reacquired by the Company, such shares are not charged against the aggregate number of shares available for awards under the Equity Compensation Plan and may again be awarded under the Equity Compensation Plan. This would occur, for example, upon a termination, expiration or cancellation of a stock option under the Equity Compensation Plan.

The Committee will make equitable adjustments upon the occurrence of certain events that result in changes in the outstanding shares of Common Stock or that result in exchanges of shares of Common Stock for a different number or class of Common Stock or other securities of the Company or another corporation. These events include, without limitation, (i) a reorganization or recapitalization of the Company or reclassification of its shares, (ii) a stock split-up, stock dividend or consolidation of shares of Common Stock, (iii) a merger, consolidation or sale of assets of the Company, or (iv) any distribution

to shareholders other than a cash dividend. Under such circumstances, adjustments may be made by the Committee in the limitation on the aggregate number of shares of Common Stock that may be awarded under the Equity Compensation Plan, the number and class of shares that may be subject to an award, the terms, conditions or restrictions applicable to outstanding stock options, including the purchase price for shares of Common Stock and the limitation on annual grants to an individual participant of a grant of options to purchase in excess of 200,000 shares of Common Stock described under "Incidents of Stock Options" below.

The Committee is also authorized to make adjustments in performance-based criteria or in the terms and conditions of other awards under the Equity Compensation Plan in recognition of unusual or nonrecurring events affecting the Company or its financial statements or changes in applicable laws, regulations or accounting principles. The Committee may also correct any defects or omissions or reconcile any inconsistencies in the Equity Compensation Plan or any agreements evidencing awards under the Equity Compensation Plan in the manner and to the extent it shall deem desirable. Moreover, the Committee may, in its discretion, make such adjustments in the terms of awards under the Equity Compensation Plan as it deems appropriate if the Company assumes any outstanding employee benefit awards or the right or obligation to make future awards in connection with the acquisition of any other entity.

Eligible Participants

The Committee has the exclusive right to determine those persons eligible to participate in the Equity Compensation Plan and will select the persons eligible to receive awards. Subject to the foregoing, any employee of the Company, as well as any other person, including directors, may participate in the Equity Compensation Plan if the Committee determines such participation is in the best interest of the Company, subject to any limitations as may be provided by applicable law or the Committee. As of August 31, 2000 the Company had approximately 746 employees (including part-time employees) and seven directors, four of whom were not employees of the Company.

Types of Awards

The Committee has broad discretion to determine the terms and conditions of incentive stock options and nonqualified stock options granted under the Equity Compensation Plan. Each option granted will be evidenced by a written agreement setting forth the terms and conditions of the option. Each such agreement will also be subject to and incorporate the applicable terms and conditions of the Equity Compensation Plan and any other terms and conditions, not inconsistent with the Equity Compensation Plan, required by the Committee.

Incentive Stock Options

The Company is authorized to grant incentive stock options ("ISOs") that may be entitled to favorable tax treatment under Section 422 of the Code. See "Tax Effects of Equity Compensation Plan" below. ISOs

-17-

may be granted to eligible participants under the Equity Compensation Plan at such time or times as determined by the Committee until July 1, 2005, subject to certain conditions described below.

The exercise price of an ISO under the Equity Compensation Plan may not be less than 100% of the fair market value of the Common Stock at the date of grant (110% for 10% owners of the Company). The fair market value of the Common Stock for any day in question will be determined for purposes of the Equity Compensation Plan based upon the closing price of the Common Stock as reported on the exchange on which the Common Stock is traded, if the Common Stock is traded on an exchange, or the last sale price of the Common Stock on The Nasdaq Stock Market if the Common Stock is traded on The Nasdaq Stock Market. The Committee is also authorized to establish an alternate method of determining fair market value of the Common Stock.

An ISO granted under the Equity Compensation Plan must be exercised in whole or in part from time to time within 10 years from the date of grant (5 years for 10% owners of the Company), or such shorter period as specified by the Committee in the corresponding award agreement. Upon a termination of employment of the optionee with the Company, as determined by the Committee in its discretion, the ISO will lapse and cease to be exercisable upon, or within such period following, the termination of employment, as determined by the Committee

and provided in the award agreement. In no event, however, can the period of time during which an ISO remains exercisable following a termination of employment exceed three months, unless employment is terminated because of death or disability of the optionee, or death occurs following termination of employment and while an ISO was still exercisable. In either case, the period of time during which an ISO right may be exercised cannot exceed one year after the date of death or, if termination arose as a result of a disability, one year from the date of disability. In no event can the period of time following a termination of employment during which an ISO may be exercised extend beyond the original exercise period of the ISO.

The amount of ISOs first exercisable by any one participant in any calendar year that may receive favorable tax treatment as ISOs may not exceed \$100,000. To the extent the aggregate fair market value of the shares of Common Stock with respect to which ISOs are first exercisable in a calendar year by an eligible participant exceeds \$100,000, such options will be treated as nonqualified stock options. The aggregate fair market value of the Common Stock for these purposes is determined as of the date the ISO is granted.

An ISO granted under the Equity Compensation Plan also will be subject to such other terms and conditions as the Committee deems necessary to impose in order to qualify the ISO under Section 422 of the Code, as well as any other terms and conditions not inconsistent with the ISO provisions of the Equity Compensation Plan as determined by the Committee.

At any time, the Committee may offer to buy out any ISO previously granted, based on such terms as are communicated to the participant at the time of the offer. Payment may be made in cash or Common Stock.

Nonqualified Stock Options

The Company may also grant nonqualified stock options ("NQSOs") to eligible participants to purchase shares of Common Stock at such time or times as determined by the Committee. These stock options will not be eligible for the favorable tax treatment available to ISOs under Section 422 of the Code. The exercise price of an NQSO under the Equity Compensation Plan will be established by the Committee in the agreement evidencing the award but may not be less than 100% of the fair market value of the Common Stock on the date of grant.

An NQSO under the Equity Compensation Plan will be exercisable in full or in part from time to time as specified by the Committee or in the corresponding award agreement. Upon termination of employment of the optionee, the NQSO will lapse and cease to be exercisable upon, or within such period following, the termination of employment as determined by the Committee and specified in the award agreement. The period of time during which the NQSO may be exercisable following termination of employment cannot exceed three months except in certain circumstances. If the termination of employment is as a result of death or disability, such period may not exceed one year after the date of death or disability. If death occurs following termination of employment while the NQSO remains exercisable, such period may not exceed one

-18-

year after the date of death. In no event will such period extend the original exercise period of the NQSO. An NQSO also may be subject to such other terms and conditions, not inconsistent with the Equity Compensation Plan, as determined by the Committee.

Incidents of Stock Options

Each stock option granted under the Equity Compensation Plan will be subject to such terms and conditions, not inconsistent with the Equity Compensation Plan, as may be determined by the Committee.

Except as provided otherwise by the Committee, a stock option granted under the Equity Compensation Plan will not be transferable by the participant other than by will or the laws of descent and distribution, or, to the extent otherwise allowed by applicable law, pursuant to a qualified domestic relations order, as defined by the Code and ERISA, or the rules thereunder, and will be exercisable during the lifetime of the participant only by the participant or his or her guardian or legal representative. The Committee may permit the transfer of an NQSO by gift conditioned upon and subject to compliance with applicable laws.

The purchase price for shares of Common Stock upon exercise of a stock

option under the Equity Compensation Plan will be payable in such amounts, at such times, and upon such terms as will be determined by the Committee. The Committee may establish payment terms for the exercise of stock options that permit the participant to deliver shares of Common Stock with a fair market value equal to the stock option exercise price as payment upon exercise of a stock option.

No cash dividends will be paid on shares of Common Stock subject to unexercised stock options under the Equity Compensation Plan. The Committee may, in its discretion, provide for the payment of "dividend equivalents" on shares of Common Stock subject to an exercisable stock option under the Equity Compensation Plan. The Committee may also, in its discretion, authorize payment of "interest equivalents" on dividend equivalents under the Equity Compensation Plan.

To the extent a participant may be required to pay the Company amounts with respect to income and employment tax withholding in connection with the exercise of NQSOs and/or with respect to certain dispositions of Common Stock acquired upon exercise of ISOs, the Committee, in its sole discretion, may permit the participant to satisfy the obligation by making an irrevocable election that a portion of the total fair market value of the applicable shares of Common Stock be applied to the satisfaction of the withholding obligations.

No participant may be granted, in any fiscal year of the Company, options to purchase more than 200,000 shares of Common Stock, except that, in connection with a participant's initial employment with the Company, the participant may be granted an additional 200,000 shares.

Effects of Change in Control

In the event of a change of control, any or all of the then-outstanding options granted on or before January 31, 1999 shall automatically become fully vested and, except as cashed out (as described below), exercisable effective immediately prior to the change in control. Outstanding stock options granted after January 31, 1999 shall vest and become exercisable only as provided in the applicable stock option agreement. The Committee in its discretion may direct that the value of all outstanding stock options, in each case to the extent vested, be cashed out on the basis of the change in control price as of the date such change in control is determined to have occurred or such other date as the Committee may determine prior to the change in control. For these purposes, "change in control price" means the highest price per share of Common Stock paid in any transaction reported on The Nasdaq Stock Market or any exchange on which the Common Stock is traded, or paid or offered in any bona fide transaction related to a change in control of the Company, at any time during the 120-day period immediately preceding the occurrence of the change in control, as determined by the Committee. The Committee has discretion to take such actions that are not inconsistent with these terms as the Committee deems necessary or advisable in the event of a change in control.

A "change in control" will be deemed to have occurred if (a) any person, including a group, but not the Company or any subsidiary or employee benefit plan thereof, who together with its affiliates and associates

becomes the beneficial owner of at least 20% of the then-outstanding Common Stock or voting power of the then-outstanding securities of the Company entitled to vote in the election of directors; (b) a sale or disposition of all or substantially all of the Company's assets is consummated, other than a sale or disposition that would not have constituted a change in control if it had been structured as a merger or consolidation; (c) the Company's shareholders approve a definitive agreement or plan to liquidate the Company; (d) the Company is merged with or consolidated into another entity unless, immediately following such transaction, (i) incumbent directors (described below) represent more than 50% of the governing body of the surviving entity at the time the initial agreement for the transaction is signed, (ii) no person, together with its affiliates and associates, is the beneficial owner, directly or indirectly, of 20% or more of the then-outstanding equity interests of the surviving entity entitled to vote generally in the election of members of its governing body and (iii) more than 50% of the then-outstanding equity interests of the surviving entity and the combined voting power of the then-outstanding equity interests of the surviving entity entitled to vote generally in the election of members of its governing body is beneficially owned, directly or indirectly, by all or substantially all of the individuals and entities who were the beneficial owners of the shares of Common Stock immediately prior to such transaction in

substantially the same proportions as their ownership immediately prior to such transaction; or (e) during any period of 24 consecutive months, the incumbent directors at the beginning of such period cease for any reason other than death to constitute at least a majority of the Board of Directors, provided that a director will be deemed to be an incumbent director if such director, although not a director at the beginning of such 24-month period, was elected by, or on the recommendation of or with the approval of, at least two-thirds of the directors then qualified as incumbent directors.

Amendment and Termination

The Equity Compensation Plan will continue in effect until terminated by the Company. Notwithstanding the perpetual nature of the Equity Compensation Plan, ISOs may only be granted under the Equity Compensation Plan until July 1, 2005.

Upon the recommendation of the Committee or otherwise, the Board of Directors may amend the Equity Compensation Plan. To the extent required by Code Section 422, no amendment to the Equity Compensation Plan may be made without approval by the Company's shareholders that would make certain changes, including (i) altering the group of persons eligible to participate in the Equity Compensation Plan, (ii) increasing the maximum number of shares of Common Stock or stock options available for awards under the Equity Compensation Plan (except as otherwise provided in the Equity Compensation Plan), (iii) extending the period during which ISOs may be granted under the Equity Compensation Plan beyond July 1, 2005, (iv) limiting or restricting the powers of the Committee in administering the Equity Compensation Plan, (v) changing the definition of participants eligible for ISOs or increasing the limit or value of shares of Common Stock for which eligible participants may be granted ISOs under the Equity Compensation Plan, (vi) materially increasing the benefits accruing to participants under the Equity Compensation Plan, (vii) materially modifying the requirements of eligibility for participation in the Equity Compensation Plan or (viii) changing the amendment provisions of the Equity Compensation Plan.

Notwithstanding the foregoing, no amendment to or discontinuation of the Equity Compensation Plan or any provision thereof may adversely affect any award previously granted to a participant under the Equity Compensation Plan without the written consent of such participant. The Committee is empowered to determine whether an amendment or discontinuation adversely affects any existing award. The Committee retains the power to (i) annul any award if the participant is terminated for cause as determined by the Committee, (ii) provide for the forfeiture of shares of Common Stock or other gain under an award as determined by the Committee for competing against the Company and (iii) convert any outstanding ISO to an NQSO. If a change in control has occurred, no amendment or termination will impair the rights of any person with respect to an outstanding award as discussed under "Effects of Change in Control" above.

Resale Restrictions

Participants under the Equity Compensation Plan may be restricted under certain circumstances in their ability to resell shares of Common Stock purchased or awarded under the Equity Compensation Plan. Resale

-20-

restrictions maybe imposed by virtue of the provisions of the Equity Compensation Plan and the applicable award agreement and/or by application of the federal and state securities laws.

Tax Effects of Equity Compensation Plan

The following discussion of the federal income tax consequences of awards granted under the Equity Compensation Plan is intended only as a summary of the present federal income tax treatment of stock options under the Equity Compensation Plan. The federal income tax laws pertaining to Equity Compensation Plan are highly technical, and such laws are subject to change at any time. This summary does not discuss the tax consequences of a participant's death or the provisions of the income tax laws of any municipality, state or foreign country in which a participant may reside. Some variations on the federal income tax effects of Equity Compensation Plan participation described below may occur with respect to participation by persons subject to Section 16(b) of the Exchange Act.

Incentive Stock Options

Although the Company has obtained neither a letter ruling from the IRS nor an opinion of counsel stating that the ISO provisions of the Equity Compensation Plan constitute an incentive stock option plan under the Code, it is expected that the options granted under the ISO provisions of the Equity Compensation Plan will qualify as ISOs for federal income tax purposes.

In general, no taxable income will be realized by an optionee, and no federal income tax deduction will be allowed to the Company, upon the grant or exercise of an ISO. The federal income tax consequences of a disposition of Common Stock received pursuant to the exercise of an ISO will depend upon whether the optionee has held the shares for the requisite holding period. If the optionee disposes of such shares after the later to occur of (a) two years from the date of the grant of the ISO or (b) one year after the date of the transfer of the shares to him (the "Holding Period"), then any gain or loss to the optionee will be taxed as a capital gain or loss according to the rules of sales and exchanges generally. The amount subject to tax will be the difference between the amount realized and the optionee's cost basis in the shares of Common Stock, which difference will be a capital gain or loss if the shares are held as a capital asset. In such event, the Company will not be entitled to a tax deduction by reason of the disposition. For purposes of this discussion, "disposition" means a lifetime transfer of legal title, such as by sale, exchange, or gift, but does not include a transfer that is triggered by death, such as one by bequest or inheritance or one made by a decedent to his estate.

A "disqualifying disposition" takes place if the optionee makes a disposition of the shares of Common Stock acquired through the exercise of an ISO before satisfying the Holding Period. If a "disqualifying disposition" occurs, the optionee must include as ordinary income the gain realized on that disposition to the extent of the lesser of (a) the fair market value of the Common Stock on the date of exercise of the ISO minus the option price or (b) the amount realized on the disposition minus the option price. The excess, if any, of the realized gain over the ordinary income component will be taxable as capital gain. Upon the occurrence of a "disqualifying disposition," the Company will be entitled to deduct, as compensation paid, the amount so included as ordinary income by the optionee.

The federal alternative minimum tax consequences of the exercise of an ISO under the Equity Compensation Plan may differ from the general federal income tax consequences of such exercise. The difference between the option price and the fair market value of the shares upon exercise will be a preference item subject to the federal alternative minimum tax.

Nonqualified Stock Options

Holders of NQSOs will not be entitled to the special tax treatment afforded by Sections 421 and 422 of the Code in connection with ISOs. Under the Code, an optionee granted an NQSO will realize no taxable income upon grant of the NQSO but will be deemed to have realized ordinary taxable income equal to the excess of the fair market value of the stock acquired at the time of the exercise of the NQSO over the option price paid. If the optionee is an employee, the Company will be required for federal income tax purposes to

-21-

withhold tax on the amount of income realized by the optionee in the transaction. The Company will be entitled to a deduction for federal income tax purposes in the year the optionee must report the income in an amount equal to the ordinary income realized by the optionee as a result of exercise of his NQSO.

An optionee's tax basis in shares acquired upon the exercise of an NQSO will be the fair market value of such shares used to determine the amount of ordinary taxable income reported by the optionee with respect to the exercise of the NQSO. Upon any sale of such shares of Common Stock, the optionee's gain or loss will therefore equal the difference between the sale price and such tax basis. Any such gain or loss will be short or long-term capital gain or loss, depending on whether the shares have been held for at least 12 months.

PROPOSAL NO. 4 -- RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

The Board of Directors has selected Ernst & Young LLP as the independent auditors of the Company for the current fiscal year. The selection is being submitted to the shareholders for ratification at the Annual Meeting; if the

shareholders do not vote for ratification, the Board will reconsider such selection. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they so desire and are expected to be available to respond to appropriate questions.

The Company engaged Ernst & Young LLP as its new principal independent auditors on September 21, 1998. PricewaterhouseCoopers LLP, the Company's former principal independent accountants, reported on the Company's financial statements for the fiscal year ended June 28, 1998. The Audit Committee of the Board of Directors recommended the change of accountants to the Board, and the Board approved the recommendation. Representatives of PricewaterhouseCoopers LLP are not expected to be present at the Annual Meeting.

The report of PricewaterhouseCoopers LLP on the Company's financial statements for the fiscal year ended June 28, 1998 contained no adverse opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principles. In connection with its audit for the fiscal year ended June 28, 1998 and through September 21, 1998, there were no disagreements with PricewaterhouseCoopers LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which disagreements, if not resolved to the satisfaction of PricewaterhouseCoopers LLP, would have caused it to make reference to the subject matter of the disagreement in its report on the financial statements for such years. During the fiscal year ended June 28, 1998 and through September 21, 1998, there were no "reportable events" as that term is defined in Item 304(a)(1)(v) of Regulation S-K of the Securities and Exchange Commission. At the Company's request, PricewaterhouseCoopers LLP furnished the Company with a letter addressed to the Commission, dated September 23, 1998, a copy of which was filed as an exhibit to the Company's Form 8-K dated September 25, 1998, pursuant to which PricewaterhouseCoopers LLP agreed with the above statements.

During the fiscal year ended June 28, 1998 and through September 21, 1998, the Company did not consult with Ernst & Young LLP on matters (i) regarding the application of accounting principles to a specified transaction or the type of audit opinion that might be rendered on the Company's financial statements, or (ii) which concerned the subject matter of a disagreement or reportable event with the former auditor (as described in Regulation S-K, Item 304).

Ratification of the selection of Ernst & Young LLP requires that the votes cast in favor of ratification exceed the votes cast opposing the proposal. Under North Carolina corporate law, abstentions are treated as non-votes in determining whether shareholders have approved a proposal. Abstentions and non-votes will have no effect on the vote to approve this proposal.

The Board of Directors recommends
shareholders vote FOR Proposal No. 4.

-22-

OTHER BUSINESS

The Company currently knows of no other matter to be submitted at the Annual Meeting. Under the Company's Bylaws, any shareholder desiring to present a proposal for consideration at the meeting, including any director nomination, was required to give the Company written notice of the proposal by a certain date. No timely proposals have been received. Should any other business properly come before the meeting, it is the intention of the persons named in the enclosed form of proxy to vote the shares they represent as the Board of Directors may recommend except as noted below. Pursuant to the Company's Bylaws, the size of the Board of Directors was fixed at nine members in 1988 but since then no more than seven persons have served on the Board at any one time. Consistent with prior practice only seven persons have been nominated for election at the Annual Meeting, and under the rules of the Securities and Exchange Commission the enclosed proxy cannot be voted for more than seven nominees.

- 3.5 The number of shares of Stock which are available for Award under the Plan shall be Nine Million Nine Hundred Nine Thousand Nine Hundred (9,909,900). Such shares of Stock shall be made available from authorized and unissued shares. If, for any reason, any shares of Stock awarded or subject to purchase under the Plan are not delivered or purchased, or are reacquired by the Company, for reasons including, but not limited to, a termination, expiration or cancellation of a Stock Option, such shares of Stock shall not be charged against the aggregate number of shares of Stock available for Awards under the Plan, and may again be available for Award under the Plan.
- 3.6 Each Award granted under the Plan shall be evidenced by a written Agreement. Each Agreement shall be subject to and incorporate, by reference or otherwise, the applicable terms and conditions of the Plan, and any other terms and conditions, not inconsistent with the Plan, as may be imposed by the Committee.
- 3.7 The Company shall not be required to issue or deliver any certificates for shares of Stock prior to:
- (a) the listing of such shares on any stock exchange on which the Stock may then be listed; and
 - (b) the completion of any registration or qualification of such shares of Stock under any federal or state law, or any ruling or regulation of any government body which the Company shall, in its discretion, determine to be necessary or advisable.
- 3.8 All certificates for shares of Stock delivered under the Plan shall also be subject to such stop-transfer orders and other restrictions as the Committee may deem advisable under the rules, regulations, and other requirements of the Securities and Exchange Commission, any stock exchange upon which the Stock is then listed and any applicable federal or state laws, and the Committee may cause a legend or legends to be placed on any

such certificates to make appropriate reference to such restrictions. In making such determination, the Committee may rely upon an opinion of counsel for the Company.

- 3.9 Except as provided otherwise in the Plan or in an Agreement, no Participant awarded a Stock Option shall have any right as a shareholder with respect to any shares of Stock covered by his or her Stock Option prior to the date of issuance to him or her of a certificate or certificates for such shares of Stock.
- 3.10 If any reorganization, recapitalization, reclassification, stock split-up, stock dividend, or consolidation of shares of Stock, merger or consolidation of the Company or sale or other disposition by the Company of all or a portion of its assets, any other change in the Company's corporate structure, or any distribution to shareholders other than a cash dividend results in the outstanding shares of Stock, or any securities exchanged therefor or received in their place, being exchanged for a different number or class of shares of Stock or other securities of the Company, or for shares of Stock or other securities of any other corporation; or new, different or additional shares or other securities of the Company or of any other corporation being received by the holders of outstanding shares of Stock, then equitable adjustments shall be made by the Committee in:
- (a) the limitation on the aggregate number of shares of Stock that may be awarded as set forth in Section 3.5 of the Plan;
 - (b) the number and class of Stock that may be subject to an Award, and which have not been issued or transferred under an outstanding Award;
 - (c) the terms, conditions or restrictions of any Award and Agreement, including the price payable for the acquisition of Stock; provided, however, that all adjustments made as the result of the foregoing in respect of each Incentive Stock Option shall be made so that such Stock Option shall continue to be an Incentive Stock Option, as defined in Section 422 of the Code; and
 - (d) the limitations on grants of Stock Options set forth in Section 6.9 of the Plan.
- 3.11 In addition to such other rights of indemnification as they may have as directors or as members of the Committee, the members of the Committee shall be indemnified by the Company against reasonable expenses, including attorney's fees, actually and necessarily incurred in connection with the defense of any action, suit or proceeding, or in connection with any appeal therein, to which they or any of them may be a party by reason of any action taken or failure to act under or in connection with the Plan or any Award granted thereunder, and against all amounts paid by them in settlement thereof, provided such settlement is approved by independent legal counsel selected by the Company, or paid by them in satisfaction of a judgment or settlement in any such action, suit or proceeding, except as to matters as to which the Committee member has been negligent or engaged in misconduct in the performance of his duties; provided, that within 60 days after institution of any such action, suit or proceeding, a Committee member shall in writing offer the Company the opportunity, at its own expense, to handle and defend the same.
- 3.12 The Committee may require each person purchasing shares of Stock pursuant to an Award under the Plan to represent to and agree with the Company in writing that he is acquiring the shares of Stock without a view to distribution thereof and/or that he has met such other requirements as the Committee determines may be applicable to such purchase. The certificates for such shares of Stock may include any legend which the Committee deems appropriate to reflect any restrictions on transfer.
- 3.13 The Committee shall be authorized to make adjustments in performance-based criteria or in the terms and conditions of other Awards in recognition of unusual or nonrecurring events affecting the Company or its financial statements or changes in applicable laws, regulations or accounting principles. The Committee may correct any defect, supply any omission or reconcile any inconsistency in the Plan or any Agreement in the manner and to the extent it shall deem desirable to carry it into effect. In the event the Company shall assume outstanding employee benefit awards or the right or obligation to make future such awards in connection with the

acquisition of another corporation or business entity, the Committee may, in its discretion, make such adjustments in the terms of Awards under the Plan as it shall deem appropriate.

- 3.14 The Committee shall have full power and authority to determine whether, to what extent and under what circumstances, any Award shall be canceled or suspended if the Participant (a) without the consent of the Committee, while employed by the Company or after termination of such employment, becomes associated with, employed by, renders services to, or owns any interest in, other than any insubstantial interest, as determined by the Committee, any business that is in competition with the Company as determined by the Committee in its discretion; or (b) is terminated for cause as determined by the Committee in its discretion.

ARTICLE IV - INCENTIVE STOCK OPTIONS

- 4.1 Each provision of this Article IV and of each Incentive Stock Option granted hereunder shall be construed in accordance with the provisions of Section 422 of the Code, and any provision hereof that cannot be so construed shall be disregarded.

- 4.2 Incentive Stock Options shall be granted only to Eligible Participants who are in the active employment of the Company, each of whom may be granted one or more such Incentive Stock Options for a reason related to his or her employment at such time or times determined by the Committee following the Effective Date through the date which is ten (10) years following the Effective Date, subject to the following conditions:

- (a) The Incentive Stock Option price per share of Stock shall be set in the Agreement, but shall not be less than 100% of the Fair Market Value of the Stock on the Option Grant Date. If the Eligible Participant owns more than 10% of the outstanding Stock (as determined pursuant to Section 424(d) of the Code) on the Option Grant Date, the Incentive Stock Option price per share shall not be less than 110% of the Fair Market Value of the Stock on the Option Grant Date.

- (b) Subject to any conditions on exercise set forth in the corresponding Agreement, the Incentive Stock Option may be exercised in whole or in part from time to time within ten (10) years from the Option Grant Date (five (5) years if the Eligible Participant owns more than 10% of the Stock on the Option Grant Date), or such shorter period as may be specified by the Committee in the Award; provided, that in any event, the Incentive Stock Option shall lapse and cease to be exercisable upon a Termination of Employment or within such period following a Termination of Employment as shall have been specified in the Incentive Stock Option Agreement, which period shall not exceed three months unless:

- (i) employment shall have terminated as a result of death or Disability, in which event such period shall not exceed one year after the date of death or Disability; or

- (ii) death shall have occurred following a Termination of Employment and while the Incentive Stock Option was still exercisable, in which event such period shall not exceed one year after the date of death;

provided, further, that such period following a Termination of Employment shall in no event extend the original exercise period of the Incentive Stock Option.

- (c) To the extent the aggregate Fair Market Value, determined as of the Option Grant Date, of the shares of Stock with respect to which Incentive Stock Options (determined without regard to this subsection) are first exercisable during any calendar year by any Eligible Participant exceeds \$100,000, such options shall be treated as Nonqualified Stock Options granted under Article V.

- (d) The Committee may adopt any other terms and conditions which it determines should be imposed for the Incentive Stock Option to qualify under Section 422 of the Code, as well as any other terms and conditions not inconsistent with this Article IV as determined by the Committee. If, for any reason, an Incentive Stock Option fails to meet the requirements of Section 422 of the Code, the Option shall automatically be deemed a Nonqualified Stock Option granted under

Article V herein.

- 4.3 The Committee may at any time offer to buy out for a payment in cash, or Stock an Incentive Stock Option previously granted, based on such terms and conditions as the Committee shall establish and communicate to the Participant at the time that such offer is made.
- 4.4 If the Incentive Stock Option Agreement so provides, the Committee may require that all or part of the shares of Stock to be issued upon the exercise of an Incentive Stock Option shall take the form of restricted stock, which shall be valued on the date of exercise, as determined by the Committee, on the basis of the Fair Market Value of such restricted stock without regard to the limitations on transfer and forfeiture restrictions involved.

ARTICLE V - NONQUALIFIED STOCK OPTIONS

- 5.1 One or more Stock Options may be granted as Nonqualified Stock Options to Eligible Participants to purchase shares of Stock at such time or times determined by the Committee, following the Effective Date, subject to the terms and conditions set forth in this Article V.
- 5.2 The Nonqualified Stock Option price per share of Stock shall be established in the Agreement and shall not be less than 100% of the Fair Market Value at the time of the grant.
- 5.3 The Nonqualified Stock Option may be exercised in full or in part from time to time within such period as may be specified by the Committee or in the Agreement; provided, that, in any event, the Nonqualified Stock Option shall lapse and cease to be exercisable upon a Termination of Employment or within such period following a Termination of Employment as shall have been specified in the Nonqualified Stock Option Agreement, which period shall not exceed three months unless:
- (i) employment shall have terminated as a result of death or Disability, in which event such period shall not exceed one year after the date of death or Disability; or
 - (ii) death shall have occurred following a Termination of Employment and while the Nonqualified Stock Option was still exercisable, in which event such period shall not exceed one year after the date of death;
- provided, further, that such period following a Termination of Employment shall in no event extend the original exercise period of the Nonqualified Stock Option.
- 5.4 The Nonqualified Stock Option Agreement may include any other terms and conditions not inconsistent with this Article V or in Article VI, as determined by the Committee.

ARTICLE VI - INCIDENTS OF STOCK OPTIONS

- 6.1 Each Stock Option shall be granted subject to such terms and conditions, if any, not inconsistent with this Plan, as shall be determined by the Committee, including any provisions as to continued employment as consideration for the grant or exercise of such Stock Option and any provisions which may be advisable to comply with applicable laws, regulations or rulings of any governmental authority.
- 6.2 Except as provided below, a Stock Option shall be exercisable during the lifetime of the Participant only by him or his guardian or legal representative and shall not be transferable by the Participant other than (i) by will or by the laws of descent and distribution, or (ii) to the extent otherwise allowed by applicable law, pursuant to a qualified domestic relations order as defined by the Code and the Employee Retirement Income Security Act of 1974, as amended, or the rules thereunder. However, the Committee may, in its sole discretion, either pursuant to an Agreement or otherwise, permit a Participant to transfer a Nonqualified Stock Option by gift or other donative transfer without payment of consideration, conditioned upon and subject to compliance with all applicable law (including, but not limited to, securities law).
- 6.3 Shares of Stock purchased upon exercise of a Stock Option shall be paid for in such amounts, at such times and upon such terms as shall be determined by the Committee, subject to limitations set forth in the Stock

Option Agreement. Without limiting the foregoing, the Committee may establish payment terms for the exercise of Stock Options which permit the Participant to deliver shares of Stock, or other evidence of ownership of Stock satisfactory to the Company, with a Fair Market Value equal to the Stock Option price as payment.

6.4 No cash dividends shall be paid on shares of Stock subject to unexercised Stock Options. The Committee may provide, however, that a Participant to whom a Stock Option has been granted which is exercisable in whole or in part at a future time for shares of Stock shall be entitled to receive an amount per share equal in value to the cash dividends, if any, paid per share on issued and outstanding Stock, as of the dividend record dates occurring during the period between the date of the grant and the time each such share of Stock is delivered pursuant to exercise of such Stock Option. Such amounts (herein called "dividend equivalents") may, in the discretion of the Committee, be:

(a) paid in cash or Stock either from time to time prior to, or at the time of the delivery of, such Stock, or upon expiration of the Stock Option if it shall not have been fully exercised; or

(b) converted into contingently credited shares of Stock, with respect to which dividend equivalents may accrue, in such manner, at such value, and deliverable at such time or times, as may be determined by the Committee.

Such Stock, whether delivered or contingently credited, shall be charged against the limitations set forth in Sections 3.5 and 6.9 hereof.

6.5 The Committee, in its sole discretion, may authorize payment of interest equivalents on dividend equivalents which are payable in cash at a future time.

6.6 In the event of Disability or death, the Committee, with the consent of the Participant or his legal representative, may authorize payment, in cash or in Stock, or partly in cash and partly in Stock, as the Committee may direct, of an amount equal to the difference at the time between the Fair Market Value of the Stock subject to a Stock Option and the option price in consideration of the surrender of the Stock Option.

6.7 If a Participant is required to pay to the Company an amount with respect to income and employment tax withholding obligations in connection with exercise of a Nonqualified Stock Option, and/or with respect to certain dispositions of Stock acquired upon the exercise of an Incentive Stock Option, the Committee, in its discretion and subject to such rules as it may adopt, may permit the Participant to satisfy the obligation, in whole or in part, by making an irrevocable election that a portion of the total Fair Market Value of the shares of Stock subject to the Nonqualified Stock Option and/or with respect to certain dispositions of Stock acquired upon the exercise of an Incentive Stock Option, be paid in the form of cash in lieu of the issuance of Stock and that such cash payment be applied to the satisfaction of the withholding obligations. The amount to be withheld shall not exceed the statutory minimum federal and state income and employment tax liability arising from the Stock Option exercise transaction.

6.8 The Committee may permit the voluntary surrender of all or a portion of any Stock Option granted under the Plan to be conditioned upon the granting to the Participant of a new Stock Option for the same or a different number of shares of Stock as the Stock Option surrendered, or may require such surrender as a condition precedent to a grant of a new Stock Option to such Participant. Subject to the provisions of the Plan, such new Stock Option shall be exercisable at such price, during such period and on such other terms and conditions as are specified by the Committee at the time the new Stock Option is granted. Upon surrender, the Stock Options surrendered shall be canceled and the shares of Stock previously subject to them shall be available for the grant of other Stock Options.

6.9 The following limitations shall apply to grants of Stock Options:

(a) No Participant shall be granted, in any fiscal year of the Company, Options to purchase more than 200,000 Shares.

(b) In connection with his or her initial service, a Participant may be

granted Stock Options to purchase up to an additional 200,000 Shares that shall not count against the limit set forth in Section 6.9(a) above.

ARTICLE VII - CHANGE IN CONTROL

7.1 A "Change in Control" shall be deemed to have occurred upon the happening of any of the following events:

- (a) Any "Person" as defined in Section 3(a)(9) of the Act, including a "group" (as that term is used in Sections 13(d)(3) and 14(d)(2) of the Act), but excluding the Company (as defined in Section 2.8 of this Plan) and any employee benefit plan sponsored or maintained by the Company (including any trustee of such plan acting as trustee), who together with its "affiliates" and "associates" (as those terms are defined in Rule 12b-2 under the Act) becomes the "Beneficial Owner" (within the meaning of Rule 13d-3 under the Act) of 20% or more of the then-outstanding shares of Stock or the combined voting power of the then-outstanding securities of the Company entitled to vote generally in the election of its directors. For purposes of calculating the number of shares or voting power held by such Person and its affiliates and associates under this Section 7.1(a), there shall be excluded any securities acquired by such Person or its affiliates or associates directly from the Company.
- (b) A sale or other disposition of all or substantially all of the Company's assets is consummated, other than such a sale or disposition that would not have constituted a Change of Control under subsection (d) below had it been structured as a merger or consolidation.
- (c) The shareholders of the Company approve a definitive agreement or plan to liquidate the Company.
- (d) A merger or consolidation of the Company with and into another entity is consummated, unless immediately following such transaction (1) more than 50% of the members of the governing body of the surviving entity were Incumbent Directors (as defined in subsection (e) below) at the time of execution of the initial agreement providing for such transaction, (2) no "Person" (as defined in Section 7.1(a) above), together with its "affiliates" and "associates" (as defined in Section 7.1(a) above), is the "Beneficial Owner" (as defined in Section 7.1(a) above), directly or indirectly, of 20% or more of the then-outstanding equity interests of the surviving entity or the combined voting power of the then-outstanding equity interests of the surviving entity entitled to vote generally in the election of members of its governing body, and (3) more than 50% of the then-outstanding equity interests of the surviving entity and the combined voting power of the then-outstanding equity interests of the surviving entity entitled to vote generally in the election of members of its governing body is "Beneficially Owned", directly or indirectly, by all or substantially all of the individuals and entities who were the "Beneficial Owners" of the shares of Stock immediately prior to such transaction in substantially the same proportions as their ownership immediately prior to such transaction.
- (e) During any period of 24 consecutive months during the existence of the Plan, the individuals who, at the beginning of such period, constitute the Board (the "Incumbent Directors") cease for any reason other than death to constitute at least a majority thereof; provided, however, that a director who was not a director at the beginning of such 24 month period shall be deemed to have satisfied such 24 month requirement, and be an Incumbent Director, if such director was elected by, or on the recommendation of or with the approval of, at least two-thirds of the directors who then qualified as Incumbent Directors either actually, because they were directors at the beginning of such 24 month period, or by prior operation of this Section 7.1 (e), but excluding for this purpose any such individual whose initial assumption of office is in connection with an actual or threatened election context subject to Rule 14a-11 of Regulation 14A promulgated under the Act or other actual or threatened solicitation of proxies or consents by or on behalf of a "Person" (as defined in Section 7.1(a) above) other than the Board.

7.2 In the event of a Change in Control: (a) any or all then outstanding Stock Options having an Option Grant Date on or before January 31, 1999, to the

extent not previously fully vested and exercisable, shall automatically become fully vested and, except to the extent such Options are cashed out pursuant to Section 7.3 below, exercisable effective immediately prior to the Change in Control; and (b) outstanding Stock Options having an Option Grant Date after January 31, 1999 shall vest and become exercisable only to the extent and in such manner as is provided in the applicable Agreement evidencing the Stock Option.

- 7.3 Upon the occurrence of a Change in Control, the Committee may in its sole discretion and consistent with the requirements of applicable law decide to cash-out the value of all outstanding Stock Options, in each case to the extent vested pursuant to Sections 7.2 above or otherwise, on the basis of the "Change in Control Price" (as defined in Section 7.4) less the exercise price under such Award (if any) as of the date such Change in Control is determined to have occurred or such other date prior to the Change in Control as the Committee may determine.
- 7.4 For purposes of Section 7.3, "Change in Control Price" means the highest price per share of Stock paid in any transaction reported on the exchange on which the Stock is then traded or on the Nasdaq Stock Market, as the case may be, or paid or offered in any bona fide transaction related to a Change in Control, at any time during the 120 day period immediately preceding the occurrence of the Change in Control, as determined by the Committee.
- 7.5 The Committee is authorized to take such actions that are not inconsistent with Sections 7.2, 7.3 and 7.4 above as the Committee determines to be necessary or advisable, and fair and equitable to Participants, with respect to an Award in the event of a Change in Control. Such action may include, but shall not be limited to, establishing, amending or waiving the forms, terms, conditions and duration of an Award and the Agreement, so as to provide for earlier, later, extended or additional times for exercise or payment, differing methods for calculating payments and alternate forms and amounts of payment. The Committee may take such actions pursuant to this Section 7.5 by adopting rules and regulations of general applicability to all Participants or to certain categories of Participants, by including, amending or waiving terms and conditions in an Award and the Agreement, or by taking action with respect to individual Participants.

ARTICLE VIII - AMENDMENT AND TERMINATION

- 8.1 The Board, upon recommendation of the Committee, or otherwise, at any time and from time to time, may amend or terminate the Plan. To the extent required by Code Section 422, no amendment, without approval by the Company's shareholders, shall:
- (a) alter the group of persons eligible to participate in the Plan;
 - (b) except as provided in Section 3.5, increase the maximum number of shares of Stock or Stock Options which are available for Awards under the Plan;
 - (c) extend the period during which Incentive Stock Option Awards may be granted beyond the date which is ten (10) years following the Effective Date.
 - (d) limit or restrict the powers of the Committee with respect to the administration of this Plan;
 - (e) change the definition of an Eligible Participant for the purpose of an Incentive Stock Option or increase the limit or the value of shares of Stock for which an Eligible Participant may be granted an Incentive Stock Option;
 - (f) materially increase the benefits accruing to Participants under this Plan;
 - (g) materially modify the requirements as to eligibility for participation in this Plan; or
 - (h) change any of the provisions of this Article VIII.
- 8.2 No amendment to or discontinuance of this Plan or any provision thereof by the Board or the shareholders of the Company shall, without the written

consent of the Participant, adversely affect, as shall be determined by the Committee, any Award previously granted to such Participant under this Plan; provided, however, the Committee retains the right and power to:

- (a) annul any Award if the Participant is terminated for cause as determined by the Committee;
- (b) provide for the forfeiture of shares of Stock or other gain under an Award as determined by the Committee for competing against the Company; and
- (c) convert any outstanding Incentive Stock Option to a Nonqualified Stock Option.

8.3 If a Change in Control has occurred, no amendment or termination shall impair the rights of any person with respect to an outstanding Award as provided in Article VII.

ARTICLE IX - MISCELLANEOUS PROVISIONS

9.1 Nothing in the Plan or any Award granted hereunder shall confer upon any Participant any right to continue in the employ of the Company, or to serve as a director thereof, or interfere in any way with the right of the Company to terminate his or her employment at any time. Unless specifically provided otherwise, no Award granted under the Plan shall be deemed salary or compensation for the purpose of computing benefits under any employee benefit plan or other arrangement of the Company for the

benefit of its employees unless the Company shall determine otherwise. No Participant shall have any claim to an Award until it is actually granted under the Plan. To the extent that any person acquires a right to receive payments from the Company under the Plan, such right shall, except as otherwise provided by the Committee, be no greater than the right of an unsecured general creditor of the Company. All payments to be made hereunder shall be paid from the general funds of the company, and no special or separate fund shall be established and no segregation of assets shall be made to assure payment of such amounts, except as otherwise provided by the Committee.

9.2 The Company may make such provisions and take such steps as it may deem necessary or appropriate for the withholding of any taxes which the Company is required by any law or regulation of any governmental authority, whether federal, state or local, domestic or foreign, to withhold in connection with any Stock Option or the exercise thereof, including, but not limited to, the withholding of payment of all or any portion of such Award or another Award under this Plan until the Participant reimburses the Company for the amount the Company is required to withhold with respect to such taxes, or canceling any portion of such Award or another Award under this Plan in an amount sufficient to reimburse itself for the amount it is required to so withhold, or selling any property contingently credited by the Company for the purpose of paying such Award or another Award under this Plan, in order to withhold or reimburse itself for the amount it is required to so withhold.

9.3 The Plan and the grant of Awards shall be subject to all applicable federal and state laws, rules, and regulations and to such approvals by any United States government or regulatory agency as may be required.

9.4 The terms of the Plan shall be binding upon the Company, and its successors and assigns.

9.5 No award shall be transferable except as provided for herein. Unless otherwise provided by the Committee or in an Agreement, transfer restrictions shall only apply to Incentive Stock Options as required in Article IV and to the extent otherwise required by federal or state securities laws. If any Participant makes such a transfer in violation hereof, any obligation of the Company shall forthwith terminate.

9.6 This Plan and all actions taken hereunder shall be governed by the laws of the State of North Carolina.

9.7 The Plan is intended to constitute an "unfunded" plan for incentive and deferred compensation. With respect to any payments not yet made to a Participant by the Company, nothing contained herein shall give any such Participant any rights that are greater than those of a general creditor

of the Company. In its sole discretion, the Committee may authorize the creation of trusts or other arrangements to meet the obligations created under the Plan to deliver shares of Stock or payments in lieu of or with respect to Awards hereunder; provided, however, that, unless the Committee otherwise determines with the consent of the affected Participant, the existence of such trusts or other arrangements is consistent with the "unfunded" status of the Plan.

9.8 Each Participant exercising an Award hereunder agrees to give the Committee prompt written notice of any election made by such Participant under Section 83(b) of the Code, or any similar provision thereof.

9.9 If any provision of this Plan or an Agreement is or becomes or is deemed invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or any Agreement under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to applicable laws or if it cannot be construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Agreement, it shall be stricken and the remainder of the Plan or the Agreement shall remain in full force and effect.
